## English Language Development and Common Core

## A Goal Setting and Strategy Worksheet

## **Design Your LCAP for Student Achievement**

As districts develop their first Local Control Accountability Plans (LCAPs), an important area to consider is the integration of ELD strategies into district Common Core State Standards implementation plans.

For many districts, this integration is an area of needed development, and in the new world of the LCAP, creating measurable goals that are targeted on student achievement can feel challenging.

Pivot has developed a sample set of goals and annual measures to provide insight into what an integrated ELD/CCSS plan might look like.

We invite districts to review these sample goals and metrics to give inspiration to their own locally-developed goals.
